Dear Ms, Sir

Several months ago before I ~~had~~ received the application patent number 11/589,781, I've written a letter of concern. I've ask you to ~~terminate~~ ^{and certainly, termination} ~~that~~ ^{all} of my files. I've also stated ~~that~~ I will retrieve and ^{re}store all previous paper work as for references. I ~~know~~ know exactly what to do and I fully understand how you want me to fabricate the structure of my format. Previously, I didn't take the guide book information into consideration. I believe the guide book were design for individuals who were totally ignorant of the development of a patent. I believe this didn't apply to me. I simply patent my work the way I wanted to. I really felt this was the right thing for me to do for as long as I was able to patent my work in a free lands style. I need to postpone the desire of ~~fulfilling~~ ^{filmy} a patent application. Money is very tight. I receive one entitlement only. I need to get myself together by obtaining and sustaining a job. In the future I will reapply for a patent.

Salomon St. Rose
